Theory Sheet 1 – Building Triads (1)

Find the 1-3-5 for each chord by finding the key on the far left column and building the triad (three note chord). For example, for C Major I'll go to the key of C, find C, then the third note in the scale is E, the fifth note is G. Therefore my C Major triad would be C-E-G. For minor and diminished and augmented you must flat or sharp the appropriate note. Remember to flat a sharped note, it would go to a natural note (i.e. F# flatted would be F)

A Major -		
F Major -		
D Minor -		
Bb Major -		
A Minor -		
G Major -		
Eb Minor -		
E Major -		
Ab Minor -		
C Minor -		
F Diminished -
